

Christopher Brown

Multi-Media
Storyteller

Biography

Ever since I was a child I've been fascinated by visual arts; photography and videography being my favorites. I love how the simple act of pushing a button to capture light; can paint images or tell stories that invoke strong emotions. Although button pushing is easy, to do so in a creative fashion is hard. The question is how to push the button, why, when, and where? This is why when I'm not working on photography or videography I'm typically analyzing films, or studying on Youtube. For me learning how to become better at pushing the button is just as important as the act itself. This is the same passion and creativity that I'll bring to your projects.
