With 14 years working in various aspects of Costumes, I have built a reputation for excellence and proactive problem-solving. Colleagues describe me as "psychic," "a ninja," and "intuitive," highlighting my ability to anticipate needs on set. Highly engaged, I take pride in fostering a harmonious environment where department heads, talent and ADs can rely on me. My strong track record includes positive feedback from key players, including high profile directors and actors. Skilled in distressing, fabric science, and bloodwork, I'm also proficient with tools like Sync on Set and have extensive sewing experience. A key strength is my calm adaptability under pressure, ensuring smooth operations in dynamic on-set situations.
