Production Assistant

Available for P.A. work in Seattle and the pacific northwest

ABOUT ME

Graduated from the Seattle Film Institute in March of 2022 with a Bachelor's degree in Filmmaking and currently have over 2 years of production experience in the film industry. Within the past 2 years I have gained an increasing amount of experience in different PA roles on a variety of sets, making reliable connections that have led to multiple job opportunities.

The various productions I have worked on include commercial, reality tv, docuseries, movies, short films, and large events. These include corporate commercials for Microsoft and Amazon as well as reality tv and series for streaming services such as Netflix, HBO, NBC, and CBS. My film education has given me knowledge and experience in various aspects of film from preproduction to postproduction, including producing my own films.

I also have certified P.A. training through The Power P.A. Course, here is a link to my directory profile which includes reviews from previous employers.
