WILDGRAVITY[®]

WHO WE ARE

Wild Gravity is a one-of-a-kind
Creative Production Agency offering
agency, production, and post services
all under one roof.

WHAT WE DO

We short-cut the agency production process in order to create **world-class creative** at a fraction of the time, footprint, and resources of any agency.

WHY WE EXIST

We exist because **the shop we always wanted** when we were clients didn't exist.

Agencies are big and slow and often **don't produce the work.**

Production companies **lack brand sophistication** and corporate polish.

WHAT WE OFFER

We offer **high-end video production** including **creative** services, **production**, **post**, **VFX**, motion graphics, 3D animation, compositing, cinematic color grading and sound design.

BRAND SOPHISTICATION

Wild Gravity works with **world's largest brands** and now we've adapted the same process we use for them to work for growing **businesses like yours**.

ONGOING ENGAGEMENTS

For clients with recurring video-content needs we offer **retainer video packages** which can help **control costs** while delivering consistent high-quality content to fill your **social media and marketing** channels. We **customize every engagement** to your needs.

CUSTOM RETAINERS THAT DRIVE RESULTS

Every Wild Gravity retainer is customized to your goals, **starting at \$5,000/month**.

We'll create the **content strategy**, define your categories, **create the hooks**, and write the scripts. We film at your location or use your own footage to batch-create enough content for the entire month, then our team handles the **editing, graphics, captions, and platform optimization** so every piece hits with impact.

Alongside production, we provide strategic support to your marketing team including **posting and analytics**.

With Wild Gravity, you get more than **content**, you get **consistency, momentum**, and a creative partner committed to **growth**. The table below is our basis for your custom engagement. Let's build your package together today.
